

Professional Speed Mentoring Day

Thursday 8th February
2018

**Education is the passport to the
future, for tomorrow belongs to
those who prepare for it today.**

Malcolm X

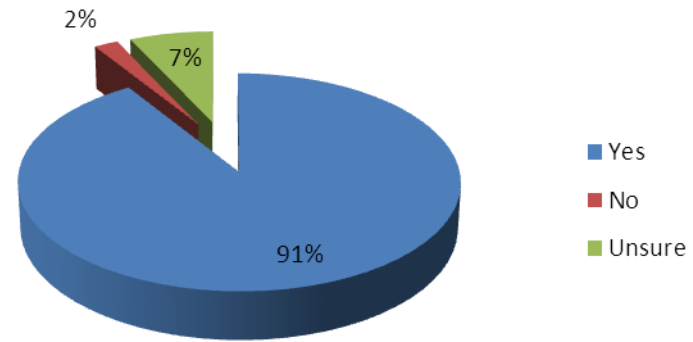

The aim of this day was to encourage students to explore a diverse range of career paths, and to give them the opportunity to discover routes into careers which they may not have previously considered.

On Thursday 8th February 2018, Kelmscott welcomed guests from a wide variety of businesses, local government, and public services to meet with our Year 9, 10, and 11 students.

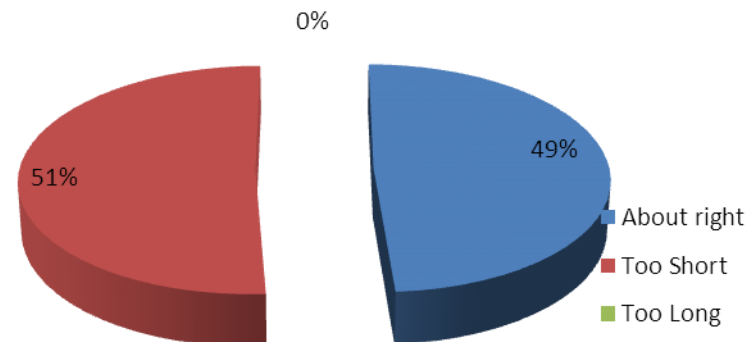

Each interviewer was asked how useful they felt the Speed Mentoring event was to our students.

Did you find the event useful for students?

I think the time allowed for questions and answers was:

“Overall, I feel that this event was very beneficial, and a great experience for myself and the students, however, the time limit that each student had to ask questions within was a little bit tight, besides that everything was organised great!”

“Great opportunity to open up kid’s minds to employment and to ask questions.”

These are some of the comments made by the Interviewers on the evaluation sheets.

“Great event – very helpful – I will attend again soon.”

“Very good!”

“Good eye opener to build understanding about the personality and drive of the student and why they want to be successful, and what area they think they should work on when leaving the room and sit down.”

“Well organised. Felt valued and appreciated. As a nudge/reminder to get students thinking about careers future it’s a useful day – very impressed by most students. The event also supports shaking hands, body language – all good for their future career, education and employability skills.”

"Timing allowed varied depending on student! Some of the students came with very set ideas of their future career path and I'm not sure that all of them found chatting to me helpful- but I hope some did! Had some fascinating conversations with some wonderful young people. Thanks for having me 😊"

"Good participation by students. Majority of students already had a good idea what they wanted to do which was really good."

"Very enjoyable first time attendee. Real mix of students - some very focussed, others a very long way from knowing what they would like to do."

"The event was well organised. I believe more events like this will help the students to great lengths. Most students have such a positive attitude."

"It was very useful for the students and interesting to see what they asked. I was advising students to stay motivated and keep going."

"I really enjoyed speaking to the youth."

"Would be good to have extended chats with kids really interested in my industry."

"I feel students found this helpful, although my profession didn't suit all I was still able to relate my position to their career choices."

"Good to have a number of students with real dreams/ hearts desires they were testing, looking at what required. Some very talented, and outgoing. Thanks for the energising experience for me. Could we be told what the pupils think they gain please. Could/would benefit from a "what's needed" training event where 2/3 people to share common issues across all vocations /jobs/ employments."

Our students were given the opportunity to discuss a wide range of career paths.

Despite a few nerves, our students really seemed to enjoy the experience.

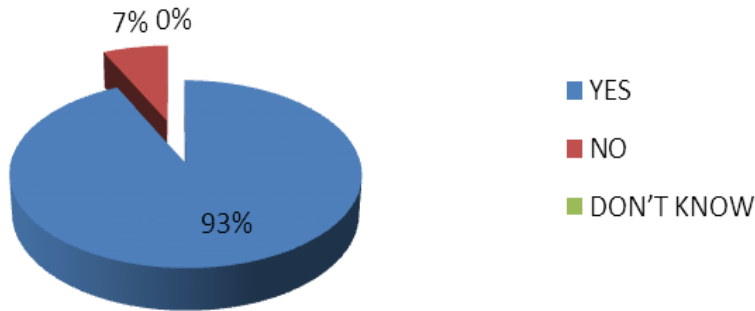

Each student was asked to complete a feedback sheet on the day of the event. Their feedback is detailed on the following pages:

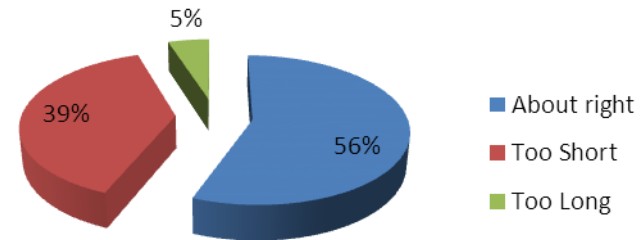

Student Evaluation

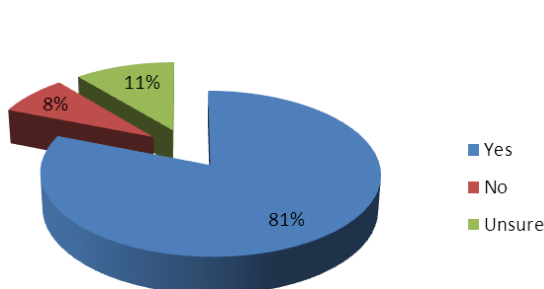

Did you find the Event useful?

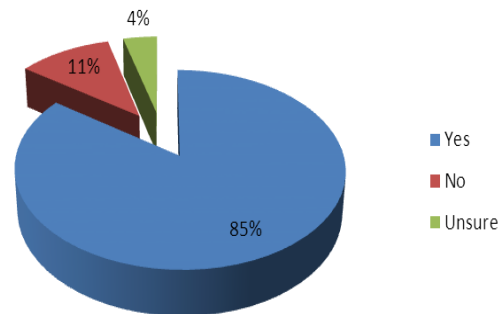

Do you think that the time allowed for questions and answers was:

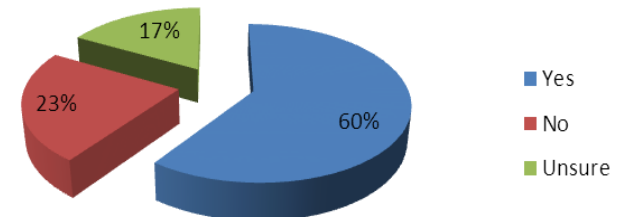

Has this event given you the information you would have liked to be given?

Were you able to find out more information about jobs you had not previously considered?

Has the event helped you to decide which subject options to choose?

Each student was asked to
leave feedback and
suggestions on the
day's events.
These are some of the
comments.

“There should be more like this.”

Some feedback
from our
students.

“I would like to do this again. They were very helpful, but there was not a lot of time. I didn’t get to speak to all the people I wanted to.”

“I loved it. I wish it was longer than one period.”

“It’s been very helpful to help me success in my life as I know what subjects I need to take to become a teacher.”

“It was really interesting and helpful. I hope they come again so that we have more time to ask questions and explore.”

“It was very interesting to know about various amounts of different jobs.”

“Good and interesting.”

“It was really useful towards my future.”

“It was very good!”

“The event was really good. There should be more time with each interviewer.”

“It was good, especially the RAF lady.”

“It was really helpful. To improve, I suggest the layout to be different so that similar jobs are in one section of the hall. Thank you.”

“I have become even more sure of what subject to choose. I feel like I can do a lot more now.”

“It was really good!”

“Thank you for organising this truly amazing event.”

“Helpful and fun!”

**The day was a great and very enjoyable success.
We would like to thank all of our interviewers.**
