

Bike Market

As part of our campaign to encourage more cycling and to help those who may not own a cycle, on Thursday 10th October, in association with Peddle My Wheels, Kelmscott held their first ever second hand bike market.

The aim of this event was to offer affordable used cycles for sale; safe in the knowledge that all bikes had been fully serviced to a high standard and could immediately be used.

Despite the cold and damp market we welcomed a number of visitors to our school. We managed to sell two of the pre-ordered cycles and took in another one for sale at a later event. One cycle was sold to a relative of a current student, someone who has not cycled for several years but was keen to exercise more and this market gave him the perfect opportunity to buy a great value cycle to help him get back to cycling.

Lene from Peddle My Wheels was incredibly knowledgeable and friendly and made the whole event so easy for us.

We hope to be able to offer more events like this to help promote cycling as a great form of sustainable transport and encourage more people to cycle together.

Thank you to Jane Sherry, Sustainable Transport Officer and Gemma Hearsom, Active Travel Officer from Waltham Forest Neighbourhood and Commercial for funding this event.
