

Kelmscott School

“Putting Learning First”

## SEND

Inclusion is at the heart of everything that we do at Kelmscott, it pervades the very fabric of the school. As an organisation we are immensely proud of the way we work collectively with each other and outside agencies. We are very passionate about the progress of our SEND learners.

We have high expectations for all Kelmscott students and ensure every SEND student succeeds and receives the support that they need to do so. We have positive relationships with our SEND students, members of the school community and their parents/carers.

We pride ourselves on ensuring that our Teaching Assistants gain the right development to ensure successful, purposeful, personal and professional development that they require to progress.

Kelmscott school is an inspiring place to work.

The January 2020 OFSTED report states ‘Pupils with special educational needs and/or disabilities (SEND) are supported well here. These pupils access the full range of subjects on offer. Extra help is tailored to pupils’ needs and ensures they understand what they learn. Parents and carers were very positive about the support their children receive’.

If this sounds like a department that you would like to professionally develop in, we look forward to receiving your application.
